Total:			24 credits	27 credits

Students receiving the Advanced Diploma must complete 10 honors courses, of which a minimum of 3 must be Advanced Placement courses.

*** Dual Enrollment**

- All dual enrollment math courses have a pre-requisite of Algebra II; Calculus has the additional pre-requisite of Pre-Calculus
- All dual enrollment classes require a 970 SAT (Critical Reading and Math), or 21 ACT (Composite) score; a 3.0 un-weighted GPA is also required
- Students that have not taken the SAT or ACT, or who do not meet the score criteria, may still take the class. Students may take the SAT or ACT while enrolled in the class, and the score can be used to satisfy the requirement. However, students will only receive college credit if they meet the score criteria.
